WORK EXPERIENCE

UPSTART

Senior Software Engineer

Remote (Los Angeles)

Jan 2022 – Present

- Founding engineer on Upstart's Mortgage team
- Contributed to Upstart's adoption of Next.js during the development of the Mortgage application intake application
- Built new services using Spring, Kotlin, and Postgres
- Built inter-service communication with Kafka and Camunda following Orchestration and SAGA patterns
- Mentored early-career engineers

UPSTART

Software Engineer

Columbus, OH

July 2020 – Jan 2022

- Led the front-end development of Upstart's [Lending Partner Console](#), a tool used by lenders to view product configurations and loan performance
- Contributed to a large refactor of Upstart's pricing logic dubbed "Project PGA" which created a competitive marketplace for lenders and investors looking to gain loan volume, while offering borrowers the lowest possible rate offered by our lending partners

BEAM BENEFITS

Software Engineer

Columbus, OH

Feb 2019 – July 2020

- Increased test coverage of Ruby on Rails and React applications by ~10%, focusing on critical paths and code core to business functions
- Contributed to the company's first microservice built outside of its monolith to pack and ship member perks more efficiently
- Conducted 30+ interviews as an interview lead

CONTENDER SOLUTIONS

Technical Consultant

Remote (Los Angeles)

Feb 2018 – Feb 2019

- General ServiceNow administration work
- Developed several highly customized Service Portal pages using Angular JS based on specific client needs

THE OHIO STATE UNIVERSITY

Application Programmer

Columbus, OH

May 2016 – Feb 2018

- General ServiceNow administration work
- Led the development of a project to load and transform data about campus blue light phones to provide accurate location data to emergency services
- Led the development of a mobile app using React Native for students to use to report issues to the campus helpdesk
